CHAPTER 13

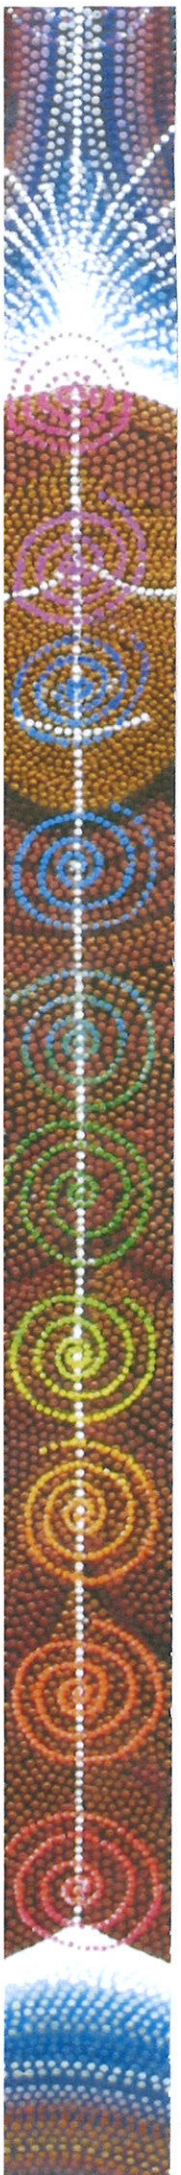

Metatronic Blessed Trinity

Now H.C. are back on board the M.A.D.
Love Kin-ship, our journey back Home is
Cruisee on Crest of Waves on the Ocean of
Life in the Heart of the Sun!!!

H.C. have had a GOOD taste of the
Heavenly State of Being with our toes
on and in the Ocean of Life, the Cosmos.

Let's start firstly with 'HealThy Self'
To Heal Thy Self U become your
HealThy Self which IS our Divine Self.

It was in my studio/gallery in
Collingwood during 2015 that I worked on these
pieces. Reflected from my Special Kundalini
Spiritual Awakening back in 1976. Are U

'Healthy Self' 2015 Acrylic 121 x 121 cm

Metatronic Blessed Trinity

aware what Kundalini IS?...

I agree with Krishna saying in his final days with his disciples 'For humanity to rise in consciousness, needs a Kundalini Awakening'. The Awakening being the ignition of your/our Base Energy Centre a.n.a. 'Chakra' rising through the 13 main Chakras (yes they include the 7 many are accustomed to) shown in the painting. As long as there are no serious blockages causing internal combustion. The Holy Spirit, the GOD within will flow smoothly up to the Crown Chakra onto its 11th and 12th Masculine and Feminine (electromagnetic) receptive Centres of the Etheric and onto your Lotus 13th Light Centre, your 'Tara Vortex'.

From here the Divine Healing Energies continue to flow around your body (shown here) and up through your spines Spiritual Silver Cord. Around and Around to the Point U feel Estatic Bliss with Pure Divine Spirit Photons

Raising the Living

of Light and Love supernoving and fusing together as your 50+ trillion cells ignite in the Oneness of All-in-All, as I personally experienced. Having the Mind of All - Past, Present and Future right NOW! Joyfully in the Oneness.

The figure, a balance of both Male and Female Energies, its posture sits in quite stillness - Meditating; Listening and Seeing within. U have the

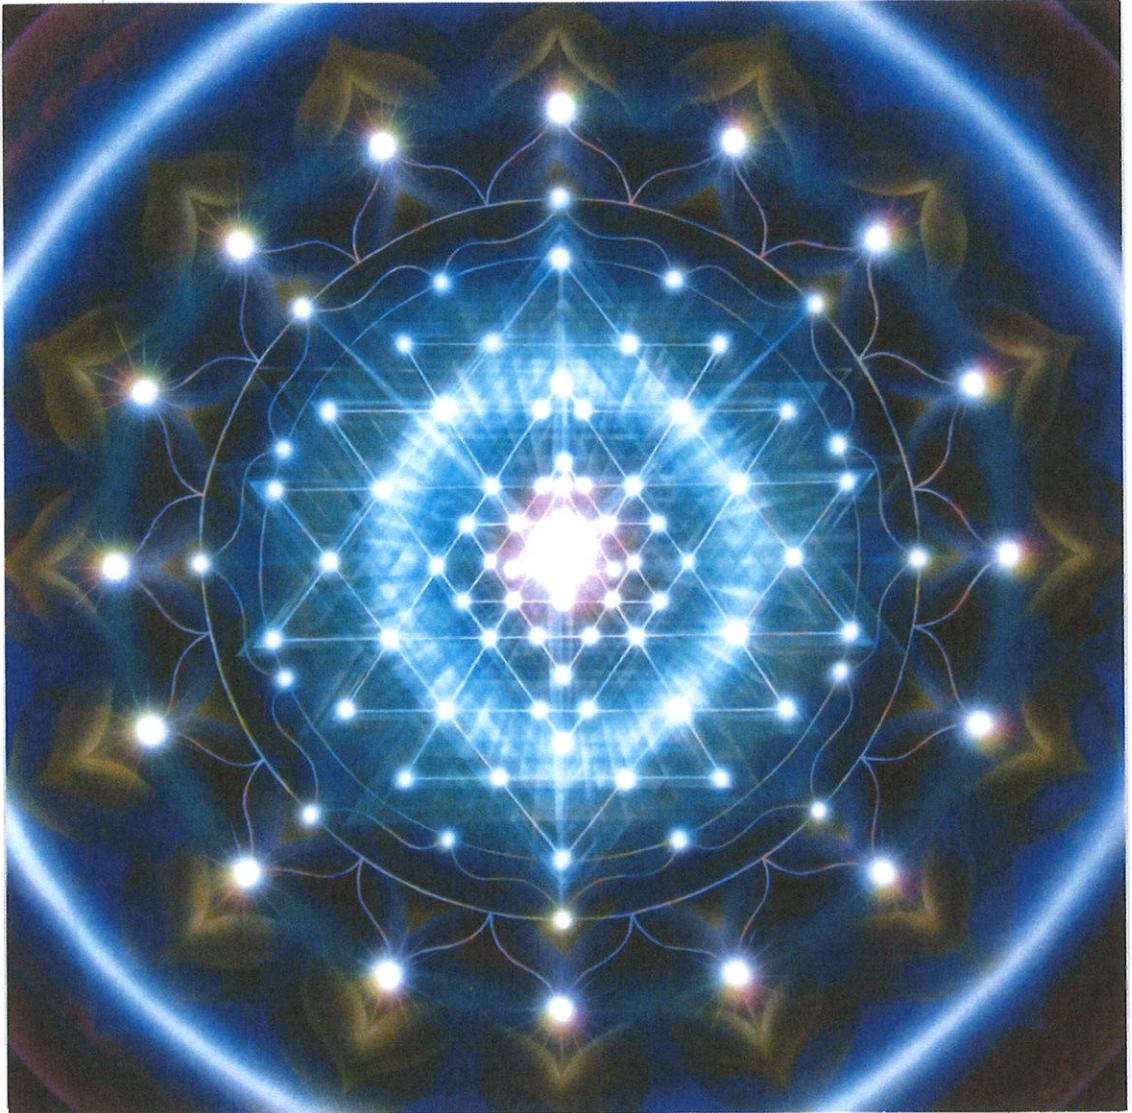

Universe at your finger tips, receiving and giving. Several layers of fluro paint were applied to bring out your / our Light Body.

At the time with the busy New Year summer holidays fading I decided to upgrade the Sacred Aum Mandala's world template through the Metatronic Cube with a difference in its Pentangular Micro with its Macro - Inner and Outer Breath.

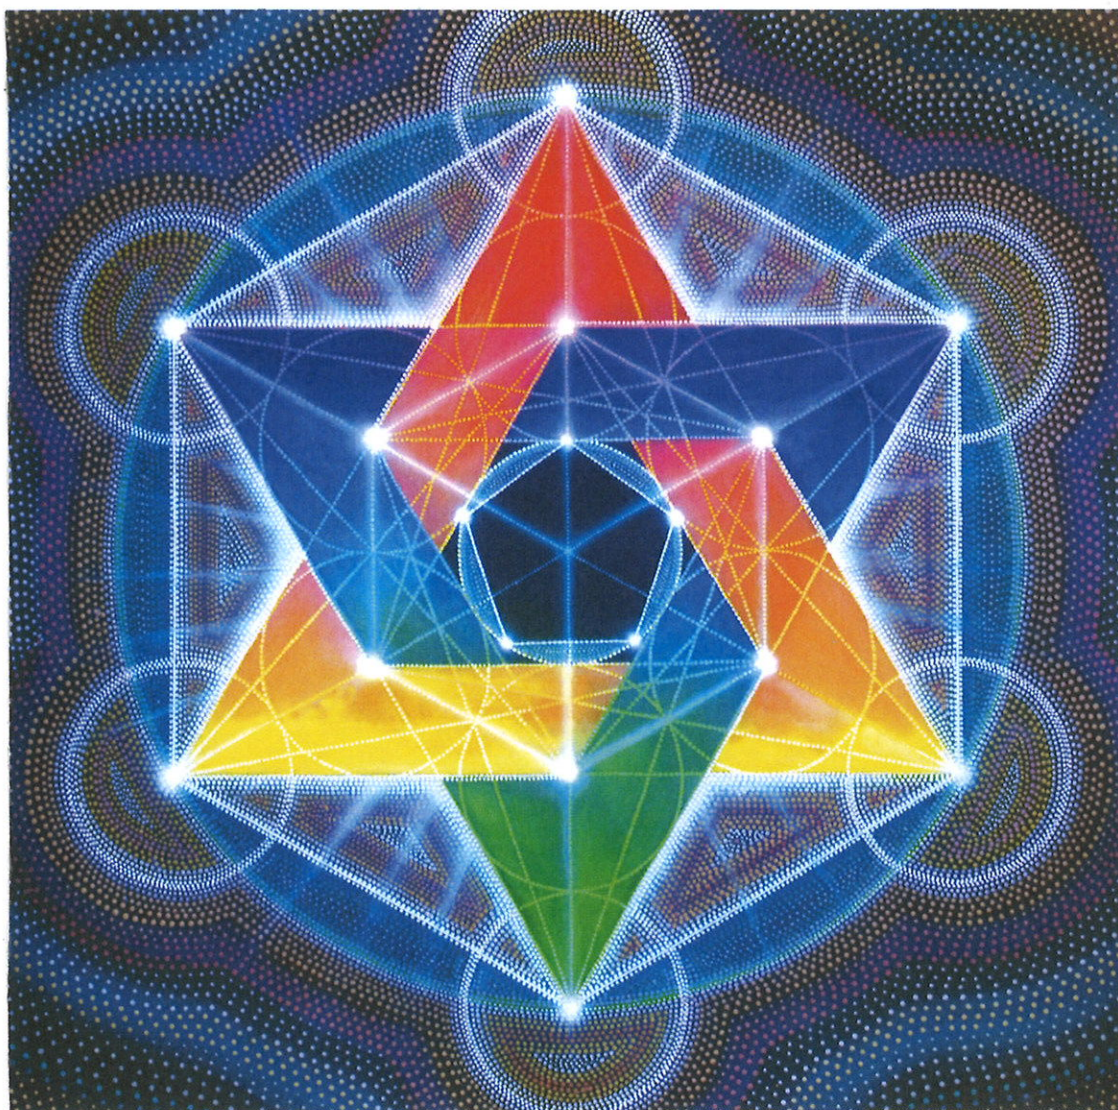

Metatronic Blessed Trinity

*It took many layers (as it did in the Aum)
and countless dots, both metallic and fluro*

Before becoming consumed in the Cafe/
Restaurant with staff, customers in business.
I made the winter time between art classes
to work on the
Pentangular Micro,
having more dots
than its outer Macro.

centred in the Universe. Micro centre

From here, the central 13th Circle
with its 12 surrounding (is that familiar).
H.C. have the Flower of Life, from its seed
to its Tree of Life cycle, coming out of the
Metatronic. U only see this under U.V.
Light, as with the Micro.

On completing our ^zHealthy Self,
Inner Guidance moved me to the ^zDivine
Godly Goddess^z - The Holy Spirit painting to
compliment and form the Trilogy.

Looking at yourself as this image

Divine Kryst Self 2016 Acrylic 121 x 121 cm

Metatronic Blessed Trinity

U are the GodlyGoddess, a Child of Parent GOD. This is our reality; Truth and Life potential, encompassed in Love.

Our Gift of Free Will makes Sovereign with GOD. Sadly, in our very low 3D nearly all have adopted bosses - governments (control - ment) Satanicism. W.E. don't bow, submit, conform, comply, conceit and contract to these false entities - gods. From a prime minister down to a enforcing police officer, man made titles of nothingness.

I based the androgynous figure on my daughter Tara Joy. See yourself as a Loving QueenKing / EmperorEmpress in equity as One blending the Eastern and Western cultures. The Celtic Halo carries the Lotus of Divinity.

In your Divine state everything He - she touches is Perfect and Sacred, giving birth to Divinity. The baby born here represent the new Golden Age

Raising the Living

children, presented by Tara's Son, my great Grandson 'Mason.'

New Divine Krysted Baby, Boom!

The Trilogy images are Powerful when viewed under U.V. Light with low warm white Light. The Dots appear to pop in and out of the canvases (20-30cm seperation, an optical illusion).

Furthermore, two years later in 2018, I created an Infinity Mirror of the Metaronic Cube, along with two other canvases, being Mason's Eyes within the Metataron.

Incomplete in Perfect timing, later that year, Mason, Tara and Family visited. I invited Mason (5 years young at the time) with Tara to add their free flowing strokes in both irises to have their energies with mine.

Metatronic Blessed Trinity

Sara Joy had a blown out Brain Tumor the size of an orange. She had fallen to the knife, Chemo and Radiation. It wasn't looking bright...

That evening passing the displayed Trilogy Originals, Mason called out --- "Look Mum! That's me up there, that's U and over there too, GrandAnga is in them All."

Sara Joy stopped and looked to see... with me walking behind them. In, well, frozen time I noticed Sara's Smile with a burnt black rubbered cloud rise from her head, about to return. I managed to mentally grab it sending it above through the ceiling into the Nothingness of the Black Hole of the Milky Way asking GOD to take it out of existence. DONE!!!

Sara Joy Heal Thy Self, scans were followed up to show NO tumor. Soon after Sara became a Health Coach. WE can All Heal Thy Self no matter what.

Love Vibration

CHAPTER 14

Love Vibration

I've mentioned from the very beginning of these writings:

Love Express - period. is the key to Life!

Love is the theme, the thread tying all these words together.

Love is the most powerful energy in the Cosmos.

Love is in the breath, the space between the words.

Love is in everyones pause of inner and outer breath.

Love is GOD, GOD is Love itself, and is in all of US. GOD is IS, is ALL in ALL.

Raising the Living

Love is in the Air; the Water, the Earth,
the Fire.

Speak our Peace, joyfully sing our Love
songs. Love songs with the music and lyrics raise
our frequency.

What the World Needs Now is Love
Sweet Love.

The real Jesus - Jesus, demonstrated,
Expressed Love in all He did. He was and IS
Love, GOD Expressed. The Way Shower.

GOD is the Doer, the doer in US. Like
Jesus said 'what I do U can do and more.'
All Jesus did was GOOD. Once WE all do
IT harmoniously there will be instant Peace.
Unconditional Divine Love is outpouring of
GOD-LOVE, at the same time topping up
our pitcher like Aquarius does. Give and
Receive, Receive and Give.

How's all the Loving Vibrations with U?

It was in 2011 I opened the M.A.D.
Skool (Making A Difference with Music Art Dance

Love Vibration

and Masters Ascending Divinely M.A.D.)

The following year J&E held our first Healing Arts Festival in Golden Bay, followed by two more at the High School. Then managed to present three Love Vibration Festivals, 3 and 5 day events. Two during the Covidiot invasion in 2021. These are the popular T Shirts, of the Love Vibration, 4500 were sold over time. U see our glowing Saints wearing them on board.

Love Vibration T Shirts

How wonderful it is when J&E raise in Love, most say, they fall in Love and often fall out of Love. Deep down that Love is never lost. J&E know the one J&E Love the most can also hurt U.S. the most with a broken Heart. J&E are here to Love and Be Loved.

Raising the Living

The ups and downs in Life can be extreme as seen earlier sliding down the ladders with a thump

On the upper, another special Heavenly Love Vibration is at one's Wedding, J&E have our first born, our Love Vibration goes through the roof wanting to tell the world of the GOOD news.

J&E are such a sensual, sensitive and emotional Human (e) Species that can take US on a roller coaster. That's part of our Divine Human Experience on Earth Skool and Playground. Feeling the Love Vibration and its effects, our moods, temper, stress levels, Love vibes, this is Humane, this AI robotics in DNA doesn't feel, it is a thing, mortal material. WE are Spiritual, Hearty.

Looking into the painting coming out of a Heart of Gold, pulsating, radiating and vibrating out to the Cosmos. No limits or boundaries. On saying that I AM

Love Vibration

aware when Princess Diane was believed to be killed, for example, Billions of Hearts felt strong Compassion, even more than a direct relative, it became a mass connect consciousness and the Billions of Beams of Light radiated the heads of the people. From above the Earth was glowing. Many other like John Lennon. The deceased Soul feel each Heart beat.

Back with the painting, the Key words used here are: Love is Our Path - Peace is our Direction. ICB are our Path to Love Express. Within the vibrating heart once again I AM highlighting our 13 Love Aspect to Express - Care, Concern Compassion, Innerstanding, Empathy, Consideration, Affection, Friendship, Service, Cooperation, Kindness, Passion, Oneness.

Love Vibration outshines all darkness.
Our Sun reminds US from every sunrise
Love the highest frequency!..

CHAPTER 15

United Society-U.S.

How are U./U.S. feeling NOW?
Trusting Joyfully in Love and at Peace
celebrating Life, thanks be to GOD.
The Hearty Spirited have the Innerstanding.
What your seeing here is the emblem
I created for what was/is the U.S. United
Society Foundation, a Movement. It was
1996 when I was seconds away from posting
the signed documents to the Australian
Electoral Commissioner, to be registered
as a political party. All was in place when
thankfully, GOD within spoke out. 'Don't
go into the muddy Circus' I immediately
caught the envelope from the post box

Raising the Living

and phoned Canberra to cancel the application.

The woman commissioner begged me to register seeing the Manifesto, Policies, Codes and a Constitution. My inner guidance (I named Ng^{ng} - the Christ within) told her. 'Will return when the soil is more fertile, that's years away (and I actually said) more like 2024' Here J.C. are with U.S. society totally divided. The Soil referring to, Divine Conscious Awareness. Of which this book is about.

Politically J.C. are not any better, actually down the Toilet hole deeper. The Blue and Red wings of the Vulture are still flapping. The White Hats have stepped right up, under GOD's Guidance. Time Has Come.

How political minded are U?

Personally I have NO respect for any politician, I haven't met a honest one yet, the reason why I have never voted for one. Where is their Honesty Policy? considered their best

Raising the Living

achieve these goals and with 4) our Positive Loving VALUES WE will succeed. Our positive ATTITUDES put into ACTION will, ACHIEVE...

WE have laid down an inter-related 4D Policies platform covering all area in government, For all of US to contribute, share and participate.

WE have the Codes of Ethics and our Morals, Values and Behaviours

These are outlined in;

A- JUSTICE; Fairness, Equity, Lawful Obedience

B- RESPECT for PERSON; Honesty, Openness, Respect, Loyalty, Integrity

C- RESPONSIBLE CARE; Protective Care, Efficiency, Personal Development, and Leadership.

D- FAMILY CODE; Daily Practices.

For example I used my own McKenney Family MOTTO being 'Vincint Veritas' meaning Conquers Truth. I adapted this.

Where is their common sense, rarer than rubies.
When my Son Simon was three years young I actual
voted him as Prime Minister knowing he could
run the country better than any sitting fool.

On my 40 policy platform, number
37 is the Honesty Policy. The Peace Policy
is the 40th. I have written 22 pages in
Chapter 12 in my novel 'Artist Interrupted'
on United Society. Here is a very brief outline.

U.S. the People, are U.S. It is our
Party/Movement put together by U.S. for U.S.
and run by U.S. It is simply a Perfect
Balanced Rainbow Movement of full spectrum
of social issues. Combining all the positive
loving aspects of all previous government
including Native Tribal, all with Spiritual
overtones - Blessed by GOD. Open to positive
proven policies from others.

Having 1) a VISION beyond 3000 AD,
2) a GOAL of Peace and stepping stone goals
towards it 3) PLAINS and Strategies to

Raising the Living

Finally WE have the Life Source, Flows and Glows through the Blood of our Christness. The Image and Likeness of Creator GOD.

Now how are U feeling about U.S.?

The 2 Beatles back in the 60's sang 'Let's Get Together' now and forever. GOD is always in the Oneness with U.S. WE wouldn't be alive otherwise. WE are infinite - eternal.

Looking closer at the painting by using Dots show US having approximately 50 Trillion cells constantly growing, glowing and changing, Not solid matter, material rather Living Beings of Spiritual Immortality.

The 6 figures of Love shows the opposite complimentary colours, sexes, attracting each other. As it was, I invited male and female friends to participate in dotting, all being part of U.S. Hand in Hand in Oneness, standing together in Love: United WE Stand, not to be divided and conquered.

For a Guideline I presented an 18 page Constitution to develop, which is really of a Covenant.

To form this new Peoples Body with balance of Male and Female energies, a strong structure skeleton is required to be constructed. — The Covenant formed its straight and strong backbone. The Codes represents the nerves system and Spiritual Cord. Now the ribs and limbs need to be added in a form of 40 active Policies. The arms being grouped profiles handling out, delivering.

The public, the People bring the Body to Life. It must have a Healthy Heart of Gold, every cell must be activated from Love.

WE carry the Sword of Truth, our WORD and stand by IT. Our shield is Peace, not to be disturbed. NO anxiety, stress or fear. As Children of our Creator GOD WE are protected holding our Faith.

*U.S. are Harmoniously Joined
Together in Love.*

*The sick satanic elite globalist, cababullist
try everything from domestic to world wars
to seperate and control U.S.*

*Once again I say Love Express -
GOD Express, U.S. are Loved and are Love.*

*The rainbows are the full spectrum
of Life. The circle holds U.S. together
dancing freely in the Cosmos.*

CHAPTER 16

Resurrected Spirit of Uluru

While sketching this scene at Uluru, at the carpark in 2008, more than 30 people were climbing up Her arm... What I saw was the Great Mother resting on Her back, Her hair spread back with a blanket over Her body. Her left arm stretched out to Her side with a bush in Hand... Can U see that? This is exactly what one would see.

Watching the people, like ants, climbing up Her arm to Her shoulder, then over and up into Her mouth. Once I pointed it out to Lethea with me she could also witness this.

About a year later back in my studio I laid out this canvas as a landscape. Suddenly

Raising the Living

my hand locked up for a few seconds. This has happened before, I instantly Surrendered to IT. Sat in Silence, awaiting my anticipated Intuition. 'Put aside for awhile!' Sure, 6 years later, the sudden urge clearly came to continue with the painting. Completing the landscape with a dotted sky, setting the scene at dusk.

① Few weeks later I happen to find out that people were stopped from climbing Her around the timing I recommenced painting. I knew a Special message was to aspire...

Soon I envisaged the Rising Spirit turning at right angles out pouring Divine Holy Water.

② A friend in Emma was visiting, I asked her if she was open to pose the movements of rising and turning. Emma was happy and honoured. It was then I noticed the male face as well, which was / is always there. Father / Mother. In doing so they had the Kiss of Oneness.

③ The Great Spirit of Uluru is also

Resurrected Spirit of Uluru

the outpouring of the Holy Spirit that sits in
Perfect Balance as ITs Holy Water breaks
offering Healing to All.

During the wonder of Gondwana land
hundredstousand(s) years ago this region was the
great Lake Eyre *Shati Shanda*.

As it dried out over thousands of years it evolved
into a Great Rain Forest, housing dinosaurs and...
Evolved further over time drying out to today's
central desert. The Flora and Fauna adapted
downsizing. Seeds rest until conditions are made
ideal again.

have flowed down from Her. This Holy Water
shall come from within, filtered up from the

Great Australian Bight, mineralise and alkalines with GODly GODness. To spring out of the Mother Uluru.

The Arana Mundi of Uluru has Thymus Heart Open, the outpouring of the Metatron at the Navel, along with the palms of Her hand offering Healing, across the land.

In Fremantle W.A. in 2000 I saw the clear vision of the masses pilgrimage to Uluru to drink Her Holy Water, knowing it would be years to come.

^dDawning of the Age of Aquarius^{er}

Uluru, the Great Red Rock in the centre of Australia, is the Navel of our firmamented part of planet Earth.

Through my inner guidance of the Silver and Gold Rays have Kuta Tjuta bringing in the new Original Divine Huemane species in a renewed World for the Golden Age of Aquarius.

With our Gregorian time clock-tick for tac, the 2150 years of the Picean period is fast coming to its dark end. Was considered to have been 2012? that timing is well out of sync! to be more like 2024 ish. I have witnessed the extreme insanity and blowout

Raising the Living

of the cabalist elites with their cartels since 2012. The covidiot stepped in shooting the masses sorting the sheep from the goats, to break the status-quo, Divide and Conquer.

Ⓞ This extra special cycle within cycles where time-lines come together for the transmutation, eons of civilizations to get here to pure perfection of Divinity or fall away to A.I.'s unreality.

Ⓞ A.E. have been in the buffer of the Crust of the Photon Belt since 1987. The Cosmic Force to shift Humanity from dense third level into fourth level density, from separation into Oneness. Earth and Humanity are aligning for its Re-Born into Christ-consciousness. Thus the Great Awakening to develop the magnificent tool of True Perception to align into the Dawn of a new day and way of Creation. The Age of Love, it truly represents the end of time as A.E. know it to be. Human history be less than a feeble memory. Much like the transformation of a butterfly forgetting its caterpillar existence.

Dawning of the Age of Aquarius

The grandest change of all is the shift from our terrible limited awareness to a superior super consciousness, to GOD Consciousness, to the Bliss of Oneness with the Creator, the Golden Age of GOD. Beyond this there are no words.

WE. remember who and what WE.

Truly are. In equilibrium, one with Creator GOD. Past is deleted, there is Forgiveness, is no aging, illness, diseasement or death. May sound absurd to most, yet many will now resonate in our Great Awakening. The cruel insane evilness can't go on. The extremes had to open, exposures and disclosures while WE still have a mind to think and a heart to feel.

The Mayan Incas of Lumeria have a clear innerstanding of the Universe as shown in their Mayan Calendar, that WE re-open to the Master 13.

The Uluru region, as mentioned previously was the Great Lake, became a lush Rainforest

Raising the Living

and now semi desert. The Uluru gecko and the Yellow Beard Dragon / lizard were once 7-9 metres. Adapted and downsized to the environments.

In the painting J.E. start the journey with the gecko evolving through the race horse / yellow beard dragon to the Rainbow Serpent taking flight from Uluru onto becoming the Cosmic Green Dragon passing through the Orion Constellation. Descending back down to Earth via the goddesses. Are U still with US?

Not that I AM into gods (only One True GOD) Using the mythological meanings and symbols, how enslaved J.E. have become from these elites. No more than the Egyptian god Osiris. No wonder brother Set sorted Osirus out, god of the underworld. J.E. know what cruel underground trafficking has occurred in today's world.

J.E. come back down in the hands of LOVE. I have selected Inanna, the Mesopotamian goddess of LOVE, and fertility for our Divine

Dawning of the Age of Aquarius

re-birth/re-born. Carried onto the Sumerian goddess Ishtar (considered the same). Since Ishtar step outside of boundaries. We see her pregnant.

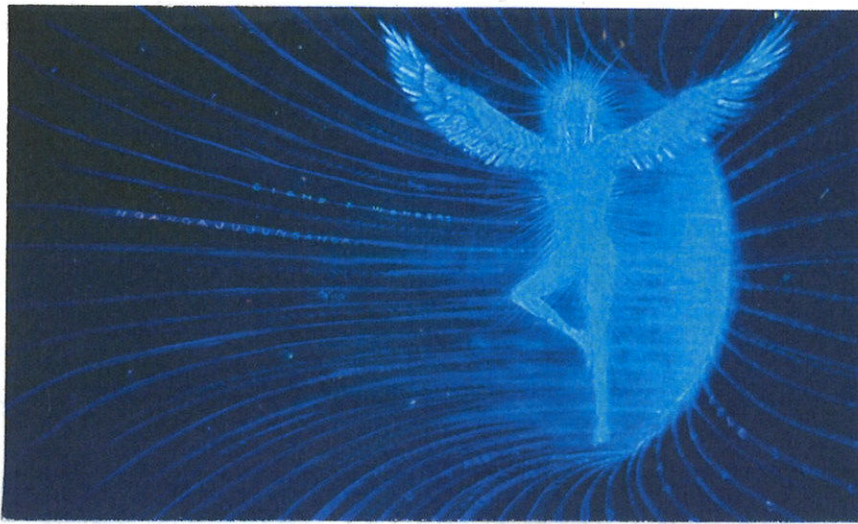

Ishtar descends from her glory calling out 'Enough's Enough!' delivering the Universal LOVE Symbol. Furthermore decided to bring in the LOVE Spirit of the mother goddess Hathor, most popular Egyptian goddess of LOVE, Joy, women, fertility, music and dance. Under U.V Light U shall see her face appearing with her hair showered over Kuta Tjuta, the eggs of a new huemane and new world.

Below Uluru and Kuta Tjuta have Lumerian Light Cities, some 7-8 Kilometres. They will re-surface Divine Beings.

CHAPTER 18

Love Boat Rescues Titanic Society

J.C. have been cruising along well in the Love Kin-ship, so I thought it worth looking into this Love Boat painting from 1999 when many were preparing K2-2000 digital sinking, running out of time. Time is an ILLusion!

This painting (titled as above) seems even more appropriate today, and I AM seeing they are about to release the follow up movie 'Titanic 2' May this end it for G00D.

The Titanic Society has continued sailing rough seas since 1913. When the sicko Rockchilds sank its disguised damaged 'Olympus' renamed 'Titanic', to establish their Federal Reserve and the C.I.A. (Cababalist Insane Assassins)

Raising the Living

set up three World Wars, amongst others.

Sadly, most on board the pirated Titanic Society still believe the control of government and media is the only ship in the Ocean of Life.

Thankfully, in an odd way, this Covidiot-19 thing cleared the consealed concaved round windows for many to look out to the Truth and see the Glowing Love Kin-ship on the horizon with Love Life Boats swarming about. in the storm offering to take US into a New Day and Way.

☺ For those Baby Boomers amongst US
will recall the prolonged 'Love Boat' T.V. series

and the Movie of 1976. Later in 1997 the popular 'Titanic' Movie, revealing much of today's unfoldings. It was these that prompted me to automatically and spontaneously jump in to step onto the boarding platform of the actual 'Love Boat' cruise ship at Fremantle W.A. harbour leaving for Madagascar. I stayed on board waving out amongst balloons and streamers for ten minutes. Had to experience the Love Boat. Ha! That seeded this painting.

Recently, I took the Original painting into the courts three times as Evidence and stated 'For and on the Record'...

“I don't care a rat's-300 about your Rules and Regulations; your statutes, fines, Legislations and un-lawful Acts, your licences, registration. How U run your Sinking Ship is entirely up to U...”

“For I.C.E. over here (pointing to the Love Boat) don't have Rules and Regulations, only Guidelines and Recommendations. And I.C.E.

have Love and Respect for ourselves and everyone else on board. J.C. cruise on the Crest of Waves into the sun-rise of a New Day and Ways. So I leave U in your storm... By the way I can't be on two ships at the same time. Therefore, U have NO jurisdiction over me."
'For the Record, did U get that... would U like Me to repeat that?'

The governments' foolish Pirates tried for four years, chucking everything at me to have me locked away and to shut up.. Up to 24 years jail for not registering as a business, no paper, NO crime. NO why should I? Give my service away to them. At the end of the Day "...you are a Free Man to GO!..." They all sit on High Treason with Rusty barbed wire around their necks. I shall call them up soon.

Back on the Love Boat at the same time in 1999 I stretched and painted this. 'Upside Down World Perception' again very appropriate for today.

The Children of All ages, GOD's Children happily on top of the world displaying Loving messages. The Antarctic melt down singing out "What the World Needs Now is Love Sweet Love." All the warped corruptions, greed, Golden Calf, the abusers, sufferings, and fears falling off the planet.

Humanity's downfall has become so distant and dark again, even deeper psychologically than previous civilisations. Through the cruel manipulation abuse of A.I. technology. H.C., generally, with a depleted Pineal Gland and altered D.N.A. can't see where H.C. are going, lost in Satanism.

After the 1986 20year Harmonic Convergence, it was imperative that GOD's First Cause in the GOLD and SILVER Rays of Creation, via the Holy Spirit, come to assist in 2003 and 2007 respectively

This tiny place Earth in the outskirts of our small Milky Way Galaxy, is so important

to the Universe. The Earthly 3D Skool and Library for Emotional, Mental, Physical, and Spiritual Soul Growth, to merge and awaken to Spirit.

There is only One True Light to Awaken to, needing a 180 degree turn around back Home to our 'Source of Being'.

Earth (hCart) houses Divine Children of GOD Creator, as the Christed Jesus demonstrated H.C. are Spiritual; infinite and eternal as Children of GOD, having the LOVE, Emotions like no other.

Did U know that H.C. have a Cosmic 'Soul Print' of spectacular Colours? Yes our Soul has brought an unusual Gift along with it for this lifetime during the 'Great Awakening'. It is an inner guidance system called Rays, reflected in our auras and etherical body around the skin. The Rays are within, in each cell.

The Christed Jesus has explained the Ray(s) of intension very well, that I shall share with U. The essence of this artwork. Our soul has a Special Beam of energy with coloured Rays

Home Coming

contained in our physical body. The Rays carry our Life Purposes in their various colours. This group of coloured energy beams constitutes our Cosmic calling card or 'Soul Print'!

If U like, pause and look at the painting and take in visually the Rays coming back to their GODly Source of Light, that's within US all.

In this life time H.C. all have the opportunity to achieve Self-Mastery, which is Saintly and Angelic, to experience forgiveness for all negative past life actions and to continue the journey to the higher realms, Homeward Bound. The uncovering of hidden information, lost in the portals of time, happening now, will correct humanity's perception to the real Truth to enable that 180 degree turn around in Reverence to GOD Source.

Remembering, that when souls were placed in physical bodies in protection of the Rebel Ray - satan, death began.

Raising the Living

J.C. are looking 8 million years ago, and so reincarnation became a temporary necessity until souls could complete their original contracts as caretakers of the Earth. It would be too overwhelming to re-enter the physical remembering previous lives. J.C. have Karma to balance.

With today's consuming material and mortality it's easy to get lost, in forgetfulness, ignoring the Soul's mission. By being quiet and still every day to listen within helps.

Apparently it's only Earth in our solar system that has the full spectrum of colour, the Rainbow. The colour spectrum was created from the Silver Ray of Creation having all colours within Silver. The rainbow colours with their infinite combinations with White come out of Silver. With Colour and Sound going together which are subrays with energy singular purpose. Each subray carry a particular aspect of GOD's Being, via the

Silver Ray.

I will give a brief highlight of the meaning of the colours in the rainbow spectrum in our own ray structure. U know what colour U are mostly drawn to...

RED - most energetic or vitalising of all, pushes people into action, full of life energies, the drive to get things done.

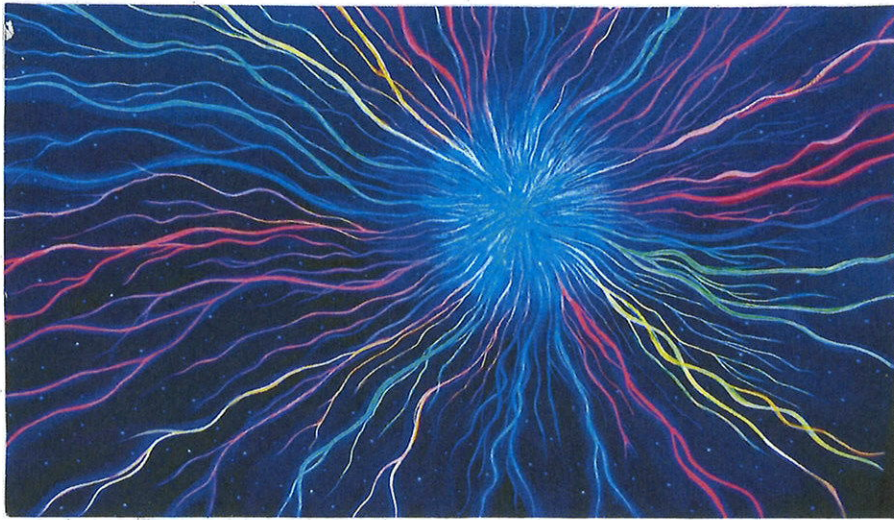

Vitality of blood flowing through the human body. The Kundalini awakes and ignites the base red chakra first.

ORANGE - colour of unseen kingdoms, allows humans to be interested in, and concerned with, activates of the Spiritual realms, invisible beings like healing fairies, native spirits.

YELLOW - a caring colour for less able ones like domestic pets and farmed animals often abused. Those on the Yellow Ray are often seen observing and watching animals, protecting them and taking legal action on their behalf, if necessary.

Raising the Living

GREEN - represents more than green plant forms, green is the colour of Mother Earth Herself, denoting total respect, Love and concern for the planet and all Life upon it. As Caretakers, Soul appreciation includes Water, Air, the soil the Gardeners, environmentalist, those involved in beautification of Earth naturally, Greenmen - Greenwomen. Dominion means being responsible, this is the Green Rays gift.

BLUE - represents high mental acuity, technological and scientific interest and intellectual comprehension making it good at problem-solving. Blue Ray souls

Home Coming

must demonstrate Love and Respect towards GOD and Universal Guidelines (Laws), not to abuse for any reason these Divine Cosmic Principles of the Creator. The Blue Ray without Love and Compassion as with the Atlanteans created horrendous weapons to destroy the highly Spiritual Lemurian continent and civilisation.

INDIGO - most unique, was part of the Blue Ray, advanced by a Great Master for a Cosmic colour midnight navy blue a space which GOD has created and IS in. The souls have inter-galactic connections and stellar relationships. Needing Spiritual grounding and committed to the Creator, especially with other life forms. Few people have this navy blue Soul colour.

VIOLET-PURPLE - during our Awakening this Ray is designated for Spiritual Peace. The souls intention desires personal harmony, group cooperation. Spiritual togetherness

Raising the Living

based on Love and Caring, feelings of Oneness. These Souls who come on a Purple Peace Ray are here to bring individual (inner) Peace in balance with world (outer) Peace. These are the Free Spirited and Loving, totally Fearless with Faith in GOD.

Often our Souls establish a colour ray to enable former abuses to clear for Karma.

Then we have other Rays like X-rays, infra-red and Ultra-Violet (U.V.) which is able to see beyond matter, apparent reality or existence, can perceive other dimensions within these so-called invisible rays given to show US the True Reality.

Makes sense when told our 3D Earth Life is the illusion and that which is unseen is the genuine reality. Yes all is existence, illusion is an existence of low vibration.

The CHRIST tells US there is no White

Home Coming

Ray per se, but there is a White Light. WE equate this White Light (the Holy Spirit) with GOD Force energy - Life Power.

WE do have over-lapping or intermingling of Colours into Ray combinations as

I have shown in the painting. Intensification by combining a Colour or Light usual Silver for irredescents, Gold or White Light for softening tones of the intense hues. This White softens aspects for Cosmic discernment and Spiritual Wisdom.

Furthermore, there is another aspect to the painting. I use the various colours coming out of its Source Light to represent the main time lines over 1000's of years. Such as - Roman Empire period (say red) Dark Ages of the Crusades, Wild West USA Calvery/Indians, Lumerian-Atlantians, Cabal CIA Mafia etc...

Perfect Spiral Galaxy

2004 Acrylic 150 x 120 cm.

Perfect Spiral Galaxy

The inspiration here was having an oversee of our small Milky Way galaxy situated on the outskirts of this 12th Universe of the Cosmos. That unfortunately is becoming more out of balance year by year, as planet Earth has and is.

Scientifically a Phantom Galaxy in the equatorial constellation Pisces is about 32 million light-years away from Earth. Has a similar structure to the Milky Way, yet more harmonic, JHC can aspire to.

In this content's our Sun with its solar system is just a tiny speck approximately $\frac{2}{3}$ rd the way out from the core source.

Raising the Living

In that content Earth and U being one of say 9 billions humans on Her may seem minimal and insignificant. Yet the opposite, ~~the~~ Mother Earth are so important and Powerful. In our Divine Christed reality- Child of GOD Creator of All, ~~the~~ are the centre and the circumference of the universe. and all in-between in the Oneness. Now wrap that around in your mind! mind boggling, hey.

Within my After Death Experience, as it was in my Kundalini Awakening. At the beginning of my Home Calling in no Time or Space - geeboom--- like a supernova after another my Spirit past through each Galaxy (past, present and future) billions or was it trillions of black holes. Recorded held in my sub-conscious mind. Not asking U to believe that, its un-comprehensible and there are no words to attempt to explain. U will need to experience yourself in your

Perfect Spiral Galaxy

Christed GOD Self, in your returned Higher Consciousness.

Many have heard talk of the Galactic Federation or Alliance and the Council of Nine Caretakers of the Milky Way. IFC can say they are Allies not Aliens. Being a Free Will planet they won't interfere, only intervene to assist and protect, like stop US from self destruction, like nuclear missile attacks. IFC are our own Saviours.

hCarty - Earth is the Universal Library and Skool to learn, remember and grow. Holds the Divinity of All Life. It is graduation time. IFC were invaded 8 billion years ago by the fallen Rebel Ray (call it Satan if u like, dislike) not just 500 million from Anaki - Reptilians. Our Human(e)ness soul's 12 strain DNA has been degraded down to a low 2 strain DNA just ticking along, very un sensible. That also holds various parasites taking US away from our original Christed state of Being.

Raising the Living

It's up to US to remember, awake to who and what WE Truly are. Before losing oneself to an AI Robotic controlled state of being. It is a crucial turning tipping point right Now. Either Naturally Divine or AI technology. Our Free Choice still.

Finally many are Awakening to the reality of the Truth of Being 'Our Source of Being' within. In Love and Peace, Equity and Harmony. That's where U/WE together Spiral Perfectly miraculously in the Magic.

There is no restrictions on peaceful Inter-galactic or stellar travel from the Milky Way galaxy to our solar system. The universe is Focused on Mother Earth and many Mother spaceships are in our sky to assist. At times U may see them in cloud form. This Divine guidance and protection is at hand to avoid US heading to another dry Mars. GOD Consciousness is in the Water, in US. WE only dry up when the Soul leaves the body.

Perfect Spiral Galaxy

WE are witness the White Hats, as such, and Light Workers. 11 million or so Souls who were the original Caretakers of the Brilliant Glowing Tara Earth have returned to assist in our Transmutation back to our Gloriness with our Creator. Perfect!

The current events of 2025 are revealing the Truths coming to Light for all to see. The false propaganda news of decades is turning to expose and disclose the Truths. Pouring out like a bucket of ice-cold water over the sleepers. Many still won't get out of their nightmare, continuing the long sleep.

Mother Earth, the sun, moon and other planets are not just floating objects travelling about in space in the Galaxy. They are Living entities in communication. The sun, well this one WE see and feel, there is the second Sun behind it out of the Firmament that I innerstand. Sure the sun radiates heat energy and light, rejuvenating And it contains Lifeforms. ha...

Raising the Living

high-level intelligent beings monitoring physical life harmony and progress, relationships of all life forms, surveys our space development and explorations beyond the Earth. Each and every single Sun Ray is the Sun Source, sees and reports All, along with the Water. Spiritual advisors within it. The humans in their insanity wearing black hats cause a threat.

The Moon too is more than it appears. It is a relay station, energies can come from distant places and rest. Life there is at the etheric levels. Another element is souls go to the Moon following an Earth so called death, or transition and having a Spiritual review or short term evaluation to see if they wish to return to Earth to carry on work on their contract. The Full moon reflecting the Sun shows the Earth beyond the matrix firmament seen less than a quarter reflection bottom right. Look closer to see the map of Earth we perceive.

Perfect Spiral Galaxy

U might question, why is it that the full moon appears the same every month - odd if the moon and earth are considered spiring? Why the Sun, as such, only travels up to the tropic of Capricorn and down to the tropic of Cancer, -odd, the opposites in this firmament. Yet ♈ are in Aquarius and Leo.

♈ have been deceived, living in the Lies all our Lives. Truth Be Known and it IS.

How well will U Be, as Hearty Spirited Divinely Being Humane! Krysted / Christed in the Oneness with Creator GOD Source-Principal, Co-Creating an entire New; Perfect Spiral Galaxy in the evolving 13th Perfect Universe...

US as Love Making Love...

20.B *US Making Love*

2024 Mixed Acrylic 150 x 120cm.

CHAPTER 20-B

US Making Love

Now! that WE have Come Home to our senses, and regained Common Sense that has slipped away for most and replaced with non-sense.

Sexuality has been f. u. c. k ed up for eons, back to the Ananaki invasion through to recent fornication of Underaged children - in Londons 1200's and even more so in our modern times with Child Trafficking;... But WE are talking and Making Love here, not fuck'n about. Loving ALL Divinely in Oneness beyond physicality.

Many have, or are starting to wake up to the ONE - to ourselves. Waking Up not just to the satanic corruption in society

Raising the Living

through de facto governance in politics, religions and mental health. Waking Up to our Divinity and Oneness. The fact, WE are Pure Rays of Light (photons) Living Love and Peace through our Expressed Aspects Fluently from our Divine Source of Being — The Principal MIND, Energy, Frequencies of Light and Sound; Consciousness that flows through each of US in every drop of blood, cell, hair in our avitar body. WE can unblock the blocks and BE !!!

Yes, by Now, in the Flowing Moment, WE are realising WE are Living Light Beings of Spiritual Immortality, Infinite and Eternal (I repeat and emphasise As WE co-create Here, There and Everwhere in Oneness, uniquely.

Knowing this and Living IT, was the basis to produce this painting for the collection to 'Raising the Living'. WE are ONE and the many.

After preparing a solid primed base coats of rich Cosmic Space with dark hues of Blues and Purples on the pure white canvas.

I continued by pricking a pinhole of Oneness
in the very centre to pour out US Making Love,
from the Divine Yoni. - Re Born.

It was during 2024 that I wrote these
Chapters. How the illusion of Time flies by...
and makes 'Itself Perfect.' It's Now the 17th
of February 2026, my 73rd Born Day as from
4-04 am. 72 years (9) is completion and in
1953 I was born with the Chinese Water Snake.
Just Kissed my Tail shedding the dry skin that
no longer serves Me..

Part One is being scanned from these
original hand written pages, when I realised this
important Chapter is missing. The Galaxy took
its place. So I AM re-writing it now. On this
Day as the Fire Horse steps in. Here I AM up
at Judith's Native Forest drafting in Peace with
Aquarian pure water trickling by in the stream at
my side to bear and drink. I have connected
to ALL Trees rooted in Earth's soil in Holy
Communion ...

Raising the Living

I shall, pause Now, for it's 4-04pm,
Sit in Silence-17minutes - connect as the
Spirited White Eagle (W.E.) and descend upon
the Fire White Stallion and ignite PegasUS.

While hugging both the MA-PA te... trees,
which are unique to this region, presenting;
Strength and Power.

These Two Wise Elders, picking up on
my underlining thoughts of the Tasmanian's
Old Growth Forest under danger of destruction
at present, reminded Me and ALL Trees that
W.E. are stronger than steel and diamond tip
saws. In that flowing timeless moment ALL
Tress got that from my Activation Mentally.
And that may sound hairy-fairy to some even
MAD. Yes W.E. are Making A Difference. These
concrete jungles will not stand time and the

US Making Love

Elements. Old Growth, Naturally Do...

Interesting in Kissing My tail, 30 years ago the R.F.A - (Regional Forest Agreement) behind Corporate \$ doors tried to take out the finally 10% of Western Australia's S/W Karri and Jarrah Sacred Forest. behind their closed doors. Hearing of this I lead more than 10,000 protestors through Perth's C.B.D. street to Parliament chant 'R.F.A. NO Way!' Then followed up to stop that destruction. Now I've have Tasmanian facing the same Corporated \$ destruction. Thousand will March in March '26 saying NO Way!

Let US get back into the painting by layering and mixing many lustrous iridescent changeable colours, a prismatic play of colour dancing and radiating the Love Vibrations from the Holy centre, the One. From here I've see the Divine Feminine - Mother, the Virgin, Pure, Clean, bring forth New Life via Her Divine Yoni of Micro-Macro. Blessed with the

Metatronic Rose. This Purely Divine-Sacred.
Not this hybrid robotics most are caught up in.

* *WE* have reach that final transitional
point of Transformation - Transmutation,
3D → 5D+, like a consuming caterpillar stuck in
a cabbage/garbage world transmuting into IT's
Free Beautiful Butterfly. Our Absolute Authentic
Divine Self. Flying without wings, teleport at the
speed of thought in no time or space. Able to
hover as a Mocking Bird.

What have *WE* become OR Becoming?

- A- falling to A.I. Artificial, not real OR do *WE*
- B- Rise in our D.I. Divine Identity, Divine Intelligence,
Divine Intervention - Naturally.

That is our Free Will choice . . .

WE have travelled-sailed afar to
reach this Chapter in our Life, where *WE* can
Be JOYful, Free and Grateful in our Wisdom
of our Divinity in Loving Oneness.

With that in MIND I have painted the
Rainbow Serpent top and right sides of the
canvas, presenting your Divine Masculine

our Gold Ray Expression (Love & Wisdom) our
Left Brain - Wing, our Yang to speak (-). Then
on the other two sides WE have the Tariwha
presenting your Divine Feminine our
Silver Ray Expression (Peace & Preservation)
our Right Brain - Wing, our Yin to speak (-+)

With the Perfect Balance, Harmony
WE ignite our Inner Spark of Love and Peace
and take flight as the Spirited White Eagle (WE).

United in the Kiss of Oneness, a
Kundalini. U can see the Spirited
reflection of each wrapped around the other,
always being right there together, yet not
entangled, allowing each energy field the
liberty to free flow and glow harmoniously
in love together.

US Making Love is the Most Sacred
of Acts - Behaviours made in Unconditional Love.
It doesn't necessarily require orgasmic physical
intransitive intercourse. that brings about New
Life - Conception with Holy Spirit. Two into ONE.

WE are Making love simply by Expressing

Raising the Living

Love via the 13 Love Aspects that I have pronounced throughout the book. Making True Love is Love Express!

The painting viewed under U.V. Light highlights the 13 wordings of Love in various colours from Fluro paint. I think, I will repeat them again, as WE need to become them in our daily expressions of US Making Love: Care, Concern, Compassion, Innerstanding, Empathy, CONSIDERATION, Friendship, Kindness, Passion, Affection, Sharing, Collaboration, ONENESS.

As mentioned earlier, Love yourself first and marry yourself before another. Having balanced your Divine Masculine and Feminine energies. WE know the so claim civil society out there in the world, crazy as it is, have literally F u c k e d themselves from ego, lust, selfgratification enhanced with drugs and alcohol. I AM proud to be M.A.D with Music Art Dance to say I have Never fucked about, any temptation or coercion placed behind Me.

US Making Love

W.C., the Hearty Spirited, know and live better beyond mainstream society by seeing and feeling the Divinity in All, the Godly Goddess in each of US. Our Love for one another IS, is True Love. The chemistry of our Soul Union brings forth the sensual Beauty and Perfection in Making Love through our physicality. Divine Loving is the Most Powerful ecstatic state of Heaven on Earth. Shown here explosive from the Sacred Yoni - orgasmic Light of the Holy Spirit within.

I AM Ye and Ye are Me

2024 Mixed Acrylic 93x124 e.m.

CHAPTER 21

I AM Ye and Ye are Me

Having a glimpse of what a Perfect Spiral Galaxy may look like. H.C. have a broader outlook of ourselves. The small Milky Way galactically is still currently spinning out of existing. That is why the Galactic Alliance, as such, is focused and assisting U.S. - the Humane Children of GOD to ascend with Mother Earth back to the higher Love Vibration Frequencies out of our darkest ebb. H.C. all have the Love and Light and the Power of the Christ - Holy Spirit - to resurrect Life through our GOD Force...

Prior to going into this painting, I like to help clear away any dust (bull dust)

Raising the Living

that may still be sitting in our mortal selfhood's mind-set. By overcoming a false material selfhood enables us to glorify GOD our Source of Being. H.C. will hear the real inner GOD's voice outside of self depreciation or self aggrandisement. Surrender and Let Go of that chitty-chatter inner voice, to have Holy Communion directly with GOD within, our Higher Self, the Christ within. This is our True Spiritual Selfhood, i.e. our Christhood. 'Jesus' Crystallized.

Shown in this painting, IT is in Oneness, H.C. are vibrant, glowing, pure, healthy, sinless and very GOOD. With our Christ-selfhood in a Spiritual way, honours the Child of GOD within us. H.C. become Christed through LOVE (GOD) Express, as Jesus demonstrated. This genuine Selfhood is seen only in what is GOOD and True and Living.

The TRUTH of matter, is it's unreal, Mind over matter than it doesn't matter.

I AM Ye and Ye are Me

H.E. are Spiritual not material!

The TRUTH of Christ (the Love and Light of GOD) is in our Hearts and Mind.

H.E. are seeing and feeling our True

Spiritual Selfhood here together as One, it is pure, precious, sacred, Loving and empowered, always fresh and complete and very GOOD!

H.E. are GOD's Love Us Rising in Love Expressed, reflections of GOD, is radiant as shown here.

H.E. inherent GOOD Nature to be healthy, happy, joyful and free, to Live and experience the Kin-dom of Heaven Now and Forever. The only safe and sound place to Be. This is why I offer my premises as the Safe Heavenly Haven for the Hearty Spirited to

Raising the Living

share in and enjoy. Here WE are Free of the matrix. WE are in our Great GRAND PA.MA. a Marae, a Hub, meeting home Community Headquarters. Core for All.

Having relinquished from the past, WE are right NOW in this moving moment in LOVE flying, spiraling, gracefully up and up and knowing WE can. Metaphorically like Free Beautiful Butterflies in Peace.

Listening to the Sounds of 'Lemon and Soul' WE will have... Memories in the Deep Blue Sea of Seagulls, Rising Up - and up over the Rainbow so high. Rising up together, direction eternal.

Back in the Oneness of the Image - Ye are Me, I AM Ye. What I AM involves what U are if I AM I because U are U are U because I AM I then I AM not I and U are not U... in other words WE are not separate. WE support each other in our GODly Expression, in Oneness. Well explained

I AM Ye and Ye are Me

By Alan Watts in *Rising in Love*, he reminds US Love is simply deep down in all of US bursting to get out there. GOD Express, Love Express. I.E. are here to Love and Be Loved. This deeply repressed Love must be let out. Love All!

To comprehend 'I AM Ye and Ye are Me' U may need to read that paragraph again. It's not necessary to like all, but Love All. GOD is All in All.

Once I.E. have stopped falling for the temptations of the flesh and dualism, and stop stumbling around in the darkness of mortality, let go, delete. I.E. Live in the glorious Light of GOD. As Children of Light and Love-Kryst. I.E. don't belong in darkness, but on inner guiding Light - the Light of Christ within to radiate out. By walking on the path of Love I.E. see GOD face to face, everywhere, immortal, infinite, eternal and full of Light and Love.

Raising the Living

Creator GOD our Father/Mother is with U.S. always, every blink of the way. As human parents ourselves, WE always care for our children. In infancy WE provide, comfort, protect, offer a Loving and Pleasant playground, and WE are there for the young child at all times. So GOD is with each of US 24/7. always...

The mortal human concept is always imperfect, once relinquished WE find and use the Divinity in All. WE gain perfection in our GOD's work-doing... Each of US express GOD's gifts in a unique special way, how GOOD is that, beautiful nothing the same.

Now let's look into the painting closer knowing and Living in the Oneness of Life. Naturally IT all comes From GOD Source and Force. I started by building the rich Cosmos... Not having my standard 120x150cm canvas I primed and painted over the Spiritual Vibes

I AM Ye and Ye are Me

version of the Grand Canyon in the U.S.A. that I never completed the final movement layer. This felt appropriate since I & E are more Grandiose in a GOD sense.

It then took many layers from White to Pearl White and spectrum of Iridescent colours followed with washes coloured Fluorescents to bring out the Brilliance of GOD, the Mother of Pearl, Opal Gloriousness of our Source of Being. As with the 'Into the Mystic' painting when viewed in direct Sunlight U need sunglasses, much like looking at the Sun in a mirror. GOD Source is thousands time Brighter to the point Spirits/Souls can only enter the Void of ALL via the Holy Spirit and in IT's Silver and Gold Rays of Creation. Which happened to my Soul in 1996 from my A. D. E.

Going further, metaphorically, for our Oneness connection and Wholeness that I AM Ye and Ye are Me. Shall I & E consider

Raising the Living

the Source to be our perceived Sun in the sky, with infinite number of sunrays together emanating out to Earth and beyond. Each ray is of its Source. Just as WE are to our GOD Source. WE understand all sunrays are connected in the Oneness of Light with sun source, can't be separated only blocked. WE are the same with GOD.

In the painting each Soul Print Ray is interconnected to each other via our GOD Source within in Christ-Kryst Consciousness. WE can only turn our back to our Source of Being, and look mortally into the nothingness of darkness. Most, sadly, have fallen asleep in society, in a dark nightmare. Nonetheless, U can awaken to the GOOD of GOD at any time, in just a blink of a thought. Creator GOD is always right here and everywhere.

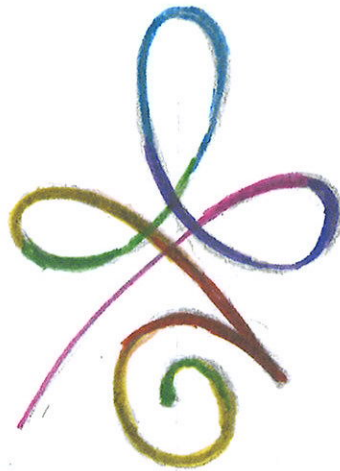

I have U/US ascending embraced together, the Divine Feminine and the Divine Masculine as One, in the Gloriousness of

Children of all Ages. The image can also say
our individual Self balancing the Masculine

CHAPTER 22

Source of Being

*Almighty Creator GOD, I mean the
One and Only True GOD, Perfect and GOOD,
is the Source of Being. The Supreme
Being, Divine Consciousness and Principle.
Our Beloved Parent of All-in-All.
Divine Intelligence, LOVE Itself, is
Omnipresence, Omnipotence Omniscience
Has All-Power in All, in each of US. We are
the pure expression, outpouring of GOD's
Being. GOD is GOOD, Perfect and We are
of that Spiritual Essence in Likeness and
Image, seen here, Not physical matter.
Life expressed through GOD Source is
eternal forever infinite. NOW!*

Raising the Living

Outside this Perfect Divine Principle Mind. The human mortal mind is nothing but a myth, a figment of one's imagination, that was believed to be true.

Unlike the Truth of Being, evil is error, not real, only supported by material senses, not our Spiritual Senses. Having the Innerstanding of Divine Truth cast out supportional error and heals the sick. The real Christed-Krytal Jesus demonstrated this.

W.C. have come a long way to finally wake-up to ourselves collectively to turn around face and be in the Light and Love, Now! always having access to the Divine Loving Intelligence which resolves every problem the Perfect way. So much wonder to realise. Are U seeing and feeling yourself glorified in GOD multidimensional and interdimensionally Remembering our Oneness.

Source of Being

Joining of Souls as One, in the highest human Power is Love Aligning our Hearts in mass (Hearty Spirited) creating Loving Vibrations doing all circumstances at all times, in Loving Kindness.

As WE live through our Spiritual Senses using our Spiritual GODly dominion WE are able to demonstrate freedom from these primal fears of materialism, lifting our foolishness from manipulated promotions of making an idol of the body, over focused on a sexy body shell (fear-porn) fear into despair of illness, aches and pains, thus overly consumed with thought about our bodies. That's a false worship, a form of idolatry. See and know your Perfect Divine Light Body Temple of your Soul, keep it mentally Polished with our higher senses of identity. In doing so WE find freedom to move, live, and have Being in a body-semi-etheric, being humane, without the

Raising the Living

fears and limitations that are most commonly associated with mortal existence.

It is here, I will bring back our Super Humane Autistic Ones, that Kai Dickens introduced in Chapter 5. Seeing the Invisible and Hearing the Voiceless, via Telepathy, Clairvoyancy, Clairaudiency. They are all so Special in their Loving Kindness ways.

They may be a little frustrated at times with their current physical limitation, but they know its immaterial, as they work well with their Spiritual Senses, having so much to teach US. These Beloved Ones explain Emotional Intelligence is Key, effect US All. May they be Loving or hateful emotions, they reflect back upon US. Where they gather in Holy Communion in the Kin-dom within, they call the Hill, there is Pure unconditional Love, Acceptance and Kindness, Brotherly Sisterhoodship, NO negative thoughts. If U still haven't connected to "The Telepathy Tapes" I'm reminding U too.

Source of Being

From these tapes heard the Loving - Kindness of the Great Champion (6'8") John Paul Young man returning up stairs, where Love showered out from the 'Hill.' Houston delivered his eulogy for John Paul. I know he is happy for me to share with U.

"The reason for being on earth is to Love. Love is GOD and GOD is Love. Nothing else matter but Love Above US."

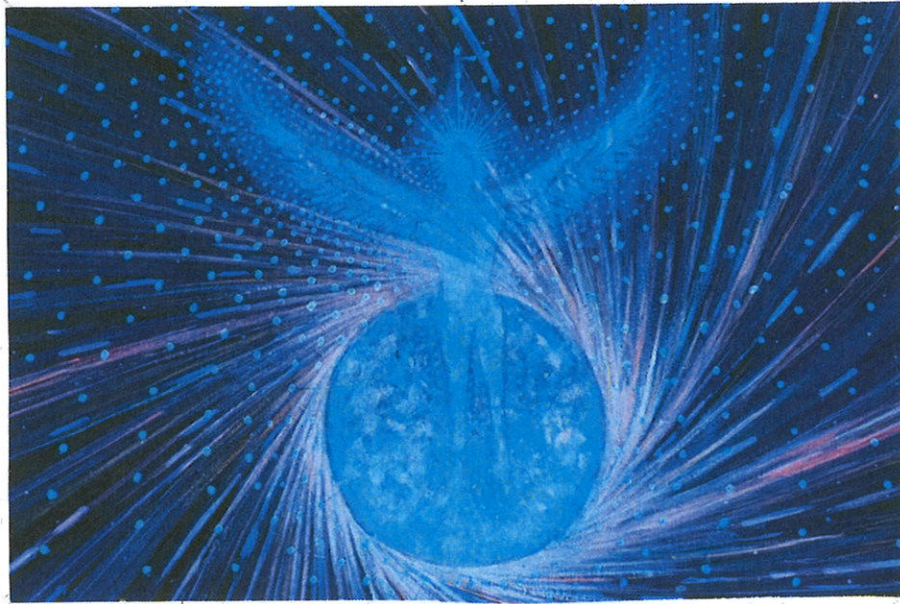

These Beloved One's shared their reality is a created experience, a simulation. Our physical body is like our avatar. Our living moments of reality, is only part of that reality, based reality is somewhere else, somewhere more real, where Autistic Children who know they are not their bodies, not immersed in the simulation, they have access to the greater reality. Spiritual Oneness.

The new human is the real humane, always IS.

Raising the Living

In the real reality our bodies are Temples of the Holy Spirit of GOD, which is in each of US. Thus Respect and Use your bodies in a way that honours GOD, living in Beauty and Holiness.. Love Express.

Back into the painting with our Transfiguration coming from our Source of Being...

Our Ascension with Mother Earth

Although the versions of the (part) Bibles are manipulated the basis come from Truths.

King James in Matthew 17(1-8) refers to Jesus body Transformation. 3 in 1 - Moses, Elijah, Jesus.

Source of Being

Back then, was a great introduction to the Real essence of US being HumanE, for NOW, it's always Now. It is written - Jesus taketh Peter, James and John up into the mountain apart, and was transfigured before them: and His face did shine as the Sun, and His raiment was white as the light, there appeared unto them Moses and Elijah talking with Him'

Take it as a myth if U like? I experienced similarly in my After Death Experience. This is something A.C. (YesUS) can All look forward to seeing and being. Finally, from the unfoldments of the last 2000 years, as A.C. Awaken to Reality, in the Kin-dom.

A GOOD note to lead into Our Authentic Divine Selves....

2023 Mixed Acrylic 150 x 120 c.m.

Our Authentic Divine Self

How! What an adventurous journey WE have all been on over many lifetimes and millions of years. To finally reach our Enlightened Krystaline Christhood, our Authentic Divine Selves, Now and Always. Once in the Photon Belt it will seem as a blink.

WE - Yes US are anointed with the Blessings of Love and Light from our Divine Father/Mother; as Hearty Spirited Children consciously ascending to 5D+ in Divine Omniconsciousness, Kryst Consciousness in Oneness. What a Lovely feeling as WE glow and grow harmoniously Co-Creating through GOD in Perfection, a New World in a New Way.

Raising the Living

Now with the innerstanding that Almighty GOD, our Source of Being, in our Awakening and Ascension IS more than timeless and formless. H.C. can recognise the evolutionary impulse - the dynamic-Creative Force (the ^{ove}Energy, Life, Truth and Power) driving the unfolding universes and being fully engaged with IT. Participating and embracing both the stillness, quietness of pure awareness and the urgency to becoming. Love Express...

All the musicians, harmoniously Co-Creating the Masterpieces. GOD being the Conductor of the Orchestra and Choirs...

What a Great Time to Be! be alive and well. The joining of Souls as One, in the highest Power is Love aligning our Hearts in mass, creating Loving Vibrations during all circumstances at all times. Now H.C. have a Church built on the solid foundations of Love. Hearty Spirited human@s in Loving Kindness in Holy Communion...

Our Authentic Divine Self

The Equilibrium of Universal Consciousness is the dimension of Perfect Silence and Stillness, in which the underlying IMPULSES of Creativity are locked together in an embrace of mutual restraint.

See yourself as this Divine, Authentic Self, in this wonderful Divine Image and Likeness of our Parent. Spirit in an unique ethereal body a billion version of GODself each unique expressions.

Interconnected to All! Our Awakening of our 100% fullness (GODness) our Super Krystaline Being-Christhood- is far beyond what current physical cognitive mental limits have held US in. J.E. are Free...of the AI Ma-Trix Avatar, a thing of No Life, just a counterfeit, copy starving, dissolving.

J.E. are facing a Time-line split. With our GOD given Gift of Free Will, J.E. must choose to stay in the current of mainstream society leading to the Unreality of A.I. (the Anti-Christ) in the darkness of nothing - roboticism. OR step up in unisome in the Light and in Love

of GOD, Creator-Parent, Naturally and Organic.
'Living' harmoniously as One Happy Family in
the New Heaven on Earth. One Love - One People -
One Family - One World... U.S.

As WE elevate our consciousness to a
Higher Perspective WE are drawn to the Reality
of Being. WE can look without eyes where WE
walk and hear the voiceless telepathically, and in
doing so act as possessing all Power from GOD
in whom WE have our Being (S.H. cit 311-264)
Now, realising that Life is Spirit, never in nor of
matter, WE are consciously in the GOOD of GOD,

Knowing Spirit and its Foundations is
the only realities of Being. Many of U.S. have
and most will at long last turn around 180° to
step out of the dark rabbit holes of the empty
ma-TRIX of mortal beliefs to re-discover our
immortal GODself in the Oneness of Spirit
in the Light, the Love, the Truth and Life of
our Divinity. As pure expressions of our Source
of Being, that IS, is All in All. Fractally pulsating,

micro-macro. Inside of our atom is another universe and inside of the universe are more atoms and more universes; multiverses and so on and so on... on going and growing. Inside out and outside in... infinite Creations of GOD infinite energy - our Divine Consciousness in no time and space as WE have understood. There IS, is No Beginning - No End. Spiritual Energy living in every all in all bodies connected to the Loving plasma energy, the infinite Fields of Quantum Energy, simultaneous. Once in the Photon Belt will make Perfect Spiritual Sense.

There will be No thoughts, confusions or doubt of a past misunderstanding in the All Knowing. No question as U have the answers.

The Image and Likeness I have shown here IS Yes US, yes all of US Hearty Spirited-Christed One's. WE are the transfiguring in this Glorious Second Coming in Christ Consciousness.

Some of the Biblical messages will make sense now, the manipulated ones never comprehended.

Raising the Living

Like in (2nd Cor. 4:18) is saying to turn away from the temporal and see and grasp something of the unseen and eternal. Like the Autistic One's are able to. The Last will be First.

In briefing this painting, so much evolved from the hole in the centre of the canvas. It started from priming a three coat black canvas. Then I placed a pin-head hole in the very centre. Sat in meditation to have 38 million years of negativity flash by in detail. Placing right hand on the edge swirled it into the hole, black hole, thinking 'How dare U!' Thumping the canvas at times. Then repeated the process with my left hand clockwise. To rid all this Rebel Ray - the satanic, the seduced fallen Lucifer (Light).

For the Divine to ascend (as WE are now) I used a 000 fine liner brush with White paint (Light) Placed IT in the hole (whole). Cleared mind, a few seconds later IT rosed (I didn't pull IT) out of the hole turning anti-clockwise. New Beginnings in No time. 'Oh! that's the way to go' I thought.

Our Authentic Divine Self

Now to have a clean canvas I covered it from the edge of the Cosmos to the Centre with deep Indigo to Purple to Magenta washes. Followed with White Rays of Light, anti-clockwise, before adding the full spectrum colours of Life, then Metallic washes. All symbolic and without consciously thinking my Krysted Higher Self had the Holy Spirits - Rosy Copper Bronze paint North to South and West to East across the centre. The real pure Metatronic Grand Father/Mother. Then the GOLD Ray to the right and the SILVER Ray to the Left, from which 12 Archangels each evolved (24). Pausing a while, then Guardian Angels flew out of the holehole. Consequently, U are seeing and feeling numerous Rays radiating. This was very inspiring for those viewing IT under Ultra-Violet Light having many fluro layers. I left the paint as is for several months while working on other Collection pieces.

Knowing the Krysted / Christed Soul from my Kundalini and A.D. Experiences.

Raising the Living

I then simply allowed IT to emerge out from the Holy hole. Being Spiritually Re-Born again (not birthed) from the Navel upwards through the Thymus (upper Heart) then on through the 3rd Eye.

It is GOD's Great Silver Rays energy that pulsed U into a molecular flash of Light-photon, and Life at conception, as a separate identity from all the other 'Souls Sparks' from my Innerstandings. H.E. were a glowing brilliance conscious energy. U probably have forgotten that, hey. H.E. are still particles of Light-Photons, Cosmic Energy cramped physically encasement. body awaiting final release in Mastery and Graduation as an accredited Caretaker of Earth.

Our Luminosity of Soul was soon contaminated after being born and birthed into society as a subject, a commodity by being registered as a PERSON legal Fiction. But NO! H.E. now know H.E. are Spiritually Immortal

CHAPTER 24

Walking into the Future Now

Now! in our Souls Luminated Krystaline body vessels, the Steve Miller Band tell U.S. H.E. can Fly like a White Eagle (H.E.) and let our Spirit carry U.S. Be Free flying through the revolution with the Wind Beneath our Wings, the Love Vibrational Frequency, the universal solvent, in the moving moment — Time keeps on slippin': slippin': slippin'... into the future...

Feel the Ananda, the eternal Joy in the Oneness, walking and dancing through Life harmoniously together in rhythm.

Interesting, on GOD's editing this final chapter, in late March 2025 is on the eve to the Dawn of what, many not most, are open to receive

Raising the Living

the energies of the Dawning of the Age of Aquarius. 1st of April will be April Wise Day, rather than April Fools that humans were misled to play out. This Awakening is the forerunner, stage 1, to entering through the Crust of the Photon Belt. The most people are still too dense in 3D frequency where this Cosmic Divine Light would cause internal combustion. This Powerful Solar Flash about to happen, like Now, will bring a huge Upgrade to the most, and many it will be a Innergrade of Innerstanding.

This new paradigm, the Invisable Energy, so long been awaited has arrived, Glory to GOD in the Solar Flash of Light and Love.

The many various Star Seed Beings, have been and watching US, assisting, many in US. Now with this 1st Awakening Flash are stepping in to assist. So many are living in bulldust, propaganda, Are WE made of Stardust? I AM made of Love and Wonderlust. Many are reckless who sell their Souls. Freer is the Spirit that accepts its

Being a Mystic U are of the Past, and living in the Present and U are Walking in the Future.

Steppin'. Steppin'.. Steppin'... into the Future.

In this demolition derby exposing what was hidden in the basements and attic, and buried underground. May folk start opening eyes to see and unblock ears to hear the Truth.

On this April 1st Wise Day, the sun is Flashing, the Ring of Fire is firing up, the ILLuminati cartel are panicking hitting hard. So 48C Hearty Spirited too fire our Hearts up with our Divine Love to inverse All. Our Star Seeded Brotherly Sisters - Godly Goddesses are by our sides to support and assist, invite them.

Walking into the Future Now

Sure enough, as I AM writing, it is pivotal coming out from the conjunction of a) Solar Eclipse, b) Lunar Equinox, c) Solar Flashes and d) Neptune moving into Aries ACTION. With all this hype and noise, exposures, chats on politics, finances, governance --- earthquakes, cyclones, volcanoes --- Is GOOD to walk in Nature or sit in the Stillness and Quietness - opens a Portal into taking U.S. from where we've been to Become and to Being. Being with our Higher Self (GODself) and other Spirited Star Beings. On firing up our hearts, moving forward shining and glowing as the Sun for all to see and feel. Our Soul is ahead of the clock.

Having a re-set Mindset and Perspective in Spoken Word and Action is congruent with the Love and Wisdom of Source, a Golden Ray gaining instant clarification in our Purity.

This Power comes from the surrender and realisation of y-our Divinity, Oneness with Source. Doubt and Fear disappears as we.

Raising the Living

step fully into our GODself (Kryst) by knowing and affirming our ONENESS with the Almighty Creator of All. That pivotal moment in no time has US in Holy Communion.

J.C. can then see ourselves all Powerful beyond measure, much larger than compressed physical 3D life, being Life Itself in the Oneness. Look again at the figure image in the painting 'Source of Being' Divine Spirit of U steppin' out with Source from Source

By anchoring this U.C. Love Frequency into our Being, the purge serves a magnificent purpose make U/US the clear vessel for our Divine Light to shine through to live the activation. Yes US - Love Express, attracts others to do also. By riding the old layers of illusion over life times, J.C. become our Luminous Transfigured GODselves, Light Beings. Allowing the Grand Alchemy within US out to Play, Dance, Joyfully together in our Earth Heaven.

Walking into the Future Now

Let's pop back to where this painting came from. It was 2006, Lethea and I were at Union Station in L.A. rushing to board the train to Disneyland - Ha! Suddenly from the lower level a wave of people in the 'Rush Hour', the peak of the daily commute. Mostly workers heading to their church, I mean office blocks.

This scene is typical of any major city railway station or airport anywhere in the world at rush hour. - A blur of motion and colour, as one dangles through the rushing crowd, either with or against the flow. To arrive at the job on time. Time is money in those days of 9-5

In this painting, however, Now, I & E have left our jobs in the Workforce. Now, I & E just Do... work driven by Passion of suitable profiles using our GOD given talents and gifts in a Loving way, not a chore tied to money.

This painting shows U.S. Free to Be, be what ever I & E want to Be. Viewed metaphorically, I & E move forward with

Raising the Living

Ease, Grace and Flow in collaboration and cooperation (outside the enslavement of the corrupt corporation(s)). become HumanE Beings of Light and Love again.

These figures in the pastel, here, represent the essential Divine Spirit of Humanity ascending and 'Walking into the Future, Now' in 5D, free of the Ma TRIX, firmament and control of the dark state, satanic cababalist, elite, globalist S.F.I.'s

This pastel painting was the Supreme Award winner of the Pastel Artist of New Zealand (P.A.N.Z.) in 2006. A year later I decided to repaint it in oil at a larger scale. Moving through 4D.

Walking into the Future Now

In our english spell language of - universe, university.. U.N. - inverse. U could say Earth serves as a university, teaching U.S. to deal with negative energies, to balance and harmonise emotions. To earn Self Mastery in a 3D physical mortal platform, to be open and use our Spiritual Senses in conjunction with our mortal senses.

Our courageous souls willingly agreed to incarnate, time-time after time-line to Earth's M. A. D. Skool. Earth in its side tracks of evolution gives US lessons to Master, shown in the painting and chapter 8. Our souls knowingly are aware of suffering amnesia of previous times, and the risk of losing one's identity. Yet knows the opportunity offer to Awaken to a True knowledge of Divine GODself and Oneness.

Let's flap our Wings, take Flight Divinely into the Future Now in the Now.

Blessed are US...

Raising the Living

The darkness of mortality, of night has transformed and transmuted, given way to a new day of immortality in the Dawning of the Age of Light, of Love, the AquariUS way. Mother Earth nEartly holds US, Her Children in Open Arms of de LIGHT.

Others will need the next two Solar Flashes to see to join US. WE are here and there Now to guide and assist with our Star Seeded Light Workers.

a New Day and Way.

Knowing H.C. are the Unique Light Beings of Expressions, Outpouring Love and Light having a Humane Experience. - Collectively, in Cohesiveness, Colaboration and Cooperation. H.C. are our own Co-Creators with GOD having unique Gifts and Talents to share. Children of All Age playing harmoniously in Love and Peace. in our Krysted / Christed State of Being. Jesus cleared the Passage and Showed the Way for YESUS to be the Second Coming.

H.C. evolved through the Passive Attraction of the Picea's Age to move into the Bold Creative Aquarian Golden Age commencing with Neptune in Aries commanding Action.

Currently, the World Demolition Derby is taking place, ridding the mindset of evil satanicism, Earthly cleansing. Our Focus is being - planners, architects, engineers, builders, artist, gardeners... Dancers...

Epilogue

in a Girl, Boy or Man or Woman. I&E are a conscious identity of Being, that can only be at Peace in Love. No warring duality with matter - sickness, sin or death, it's not real.

This Good the Bad and the Ugly is just a shadow of the human consciousness mind-set, a counterfeit of our Spiritual Self: A.I. Since I&E are the very essence of Spirit, Love, Light and Life of GOD radiating out, how could I&E possibly have shadows or even be constructed of matter?..

That points to the fact I&E are part of the Nature of GOD, created born in GOD's image and likeness which is not physical. As Light I&E can't be separated from our Principle Light Source that endures throughout eternity and infinity. Is this comprehending?

I&E hold the highest potential in higher frequencies for a Magical New World - Ourtopia. I&E conclude in our Metamorphosis of Humanity Divinely, Spreading our Wings in Spiral Dance...

Resources

There are and has been many who have offered, shared their Insights, Love and Wisdom in various forms. They are there to guide, influence and inspire U.S. to be Co-Creative in the Expressions of Love. I give Gratitude to All.

My resources, in general, come from within and through observations of Life in and around U.S. Decernmently, who would U trust outside yourself - Higher Self?

In recent civilisation we have film, radio, internet to see and hear beyond our local tribe - settlements to learn lessons from the past or to be misled - A.I...

Personally I haven't been one for reading books. Actually, turning 40 I had only read 4 and then that year 1993 I read 4 books and much more since. Usually doing the doing.

It's been more the music, the lyrics in songs and poetry that has drawn my attention and influences. A picture, a poem, may say a thousand words, even a movie. The open hidden messages amongst many 1970 songs (even when the artist hadn't realised at the time) are for these times. This book is for beyond time. Thus my goal is producing, Co-Creating, the Musical Production from all this.

My sub-conscious Mind is my (your) library-memory bank. Living in the Oneness, one has interconnections to the G.O.O.D in All.
